	MEMORANDUM FO	R#	Chief, Materiel Staff, DPD
25X1A	ATTENTION	*	
	STIP TECH	٠	Foreign Matter in Fuel Strainer

As previously discussed, the recent rash of debris in U-2 fuel strainers could be a serious matter. I'm sure you can appreciate that we would feel much better if it could be determined where the stuff came from. Request Special Projects Branch be advised of the latest info on the problem, corrective action, etc. Please.

25X1A Lt. Colonel USAF
Chief, Special Projects Branch, DFD
